**SF1643**

---

**Design Features**

- High flow at low pressure drop
- Use individually
- Can be bolted together for multiple valve bank
- Heavy duty cast steel body
- Yellow zinc plated
- One piece tube assembly
- One piece encapsulated coil (easy to replace).
- Manual override
- Mount in any position

**Specifications**

- 3,600 psi (250 bar) Maximum Operating
- 15 GPM (57 LPM) Nominal Flow
- Ports: ½” SAE (SAE 8) Standard
  - 6 Ports
- 12, 24 & 48 Volts DC available
- 36 Watt
- ISO 43650 DIN Coil Connections
- Manual Override

- **Typical Circuit**

- **Multiple Bank of 3 Valves**

- **Ordering Part Number**
  
  **Model SF1643-xx**
  
  xx = Coil Voltage
  
  12 = 12 VDC
  
  24 = 24 VDC
  
  48 = 48 VDC

  SAE 8 Ports standard
  
  DIN Connectors standard
